MassGeneral Hospital for Children

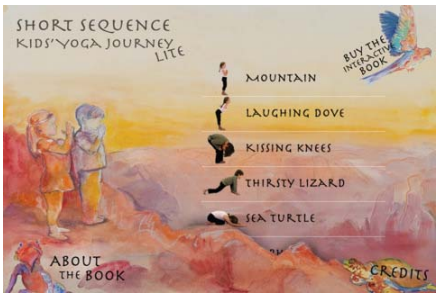
Free Smartphone Applications for Healthy Young Children

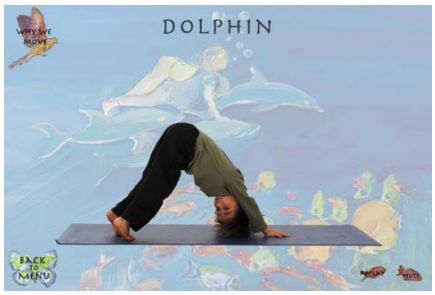
MONUMENTAL

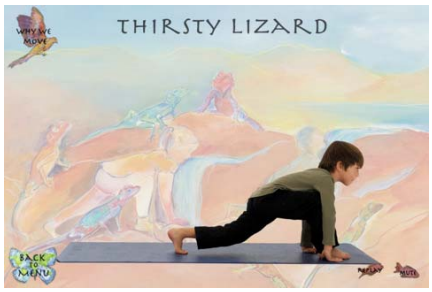
- Available for iPhone.
- Kids can explore monuments of the world while they seek out and climb real stairs in their environment.
- Kids choose a famous monument that they would like to climb (such as the Eiffel Tower). They can then “climb” them based on how many steps they climb in real life.
- Kids collect “souvenirs” for the steps they climb.

SHORT SEQUENCE KID’S YOGA JOURNEY

- Available for iPhone.
- Tells a story while introducing children to yoga poses and exercise.
- Brings children through yoga poses using video and audio.







MUNCH 5-A-DAY

- Available for iPhone.
- Helps with recommendations for meeting the goal of five fruits and veggies a day.
- Set goals and get awards for meeting goals.
- Track your diet, and see how things improve over time.
- Share progress with Facebook or Twitter if you want.
